

Concrete Hopper

Concrete Hoppers - This attachment is a self-dumping hopper that automatically sets off to dump as bumper release touches the side of a dumpster. Once dumping is finished, the hopper returns to an upright and locked position. This piece of equipment is even available together with a cable which enables operation from the seat of the lift truck to be able to have the option of manually unloading the hopper. There is a locking chain provided so as to lock the hopper to the fork truck. This product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish so as to maintain durability.
